OSF Academy – Quality Assurance Certificate

I'm excited to announce that I have successfully completed the **OSF Academy Quality Assurance certification** at **OSF Digital**.

This comprehensive 4-week training program, part of a global initiative by OSF Digital, has significantly enhanced my knowledge and skills in software quality assurance. Throughout the course, I deepened my understanding of QA methodologies, testing strategies, defect lifecycle, and industry best practices.

It was an excellent opportunity to collaborate with other professionals and learn from experienced mentors within a structured and dynamic learning environment.

This achievement reflects my ongoing commitment to delivering high-quality digital solutions and continuously growing in the field of software testing.
